

WASHOE COUNTY SCHOOL DISTRICT TRANSPORTATION

November 5, 2010

Bus Number – 10 Hunsberger

Dear Parents:

As we plan for winter weather, we will be utilizing “Winter Bus Stops” that I would like to clarify. On occasion, the winter road conditions make it extremely hazardous to get buses to some of our regular bus stops. On these rare occasions, we will change some regular bus stops to winter stops.

Our hope is by providing the winter stop locations we can collaborate with parents to transport your students to school in the safest manner. Our expectation is that parents will drive students to these winter stops.

Please monitor the TV, radio stations, and our website (www.washoe.k12.nv.us) for delays or the possibility that “Winter Stops” will be used. You may also call 334-8373 for information. If you have any doubt regarding the location of the stop on a particular morning, proceed to the “Winter Stop.”

If you have questions regarding this policy or any issue regarding transportation, please call me at 348-0291.

Sincerely,

Rick Harris
Senior Administrator
